September 3, 2010

To: All Prospective Contractors

RE: A: Scrap Metal Pick-up & Recycling for Los Angeles, Orange, and Ventura Counties;
B: Instructions for Submittal of Monthly Payments and Recaps, DRR10024

**Addendum No. 2
To the Invitation for Bid (IFB) DRR10024**

1. The following questions were submitted during the Question & Answer period and the responses are provided below.

Q1. What type of license is required such as Class A, Class B, and etc.

A1. Any license required by DMV. A driver must have the proper license for the type of vehicle used to pick-up scrap metal. For instance, if the driver is using a single or dual axel truck that requires only a Class C license, then the driver must have a Class C License in good standing. If the driver is driving a semi-tractor trailer then a Class A license is required in good standing.

2. All other terms, conditions, and requirements of this IFB will remain the same.

If you have any questions relating to this IFB process, please contact me at 916.341.6124 or at contracts@calrecycle.ca.gov.

Sincerely,

{Original Signed By}
